The crankcase breather is generally mounted on the exterior of the engine case, often with a small "cage" around it to protect it but still allow access. Briggs & Stratton lawnmowers will typically have the breather mounted near the rear of the engine, but other makes may have the breather mounted on the right or left side or even at the front ...

I have a Briggs and Stratton Intek 20 HP in a riding lawn mower. The fuel pumps have been failing every 1 to 2 hours. I put it on my other B&S engine and it does not work. I put the fuel pump from the other engine on the Intek 20, and it works. I've replaced the pump three times and now realize that something else has to be wrong.
