document) and is written to declare its intent and scope. This proposal is written to solicit additional participation and input from the Eclipse community.

BPEL Designer Editor - Eclipse

If you don't want to install everything and compile but are a curious soul, then the simplest way is the BPEL Editor Update Site. In order to use the Update Site, you will have to have Eclipse 3.6.x running and make sure that you can install from within Eclipse. Then follow the directions on the update site. The update site contains dependencies that the BPEL plugins need (WTP, EMF, GEF, JEM).
