Representatives from 26 Allied nations met in Washington, D.C. on January 1, 1942 to sign the Declaration of the United Nations, which essentially described the war objectives of the Allied powers.

United Nations – HISTORY

Read Free 1 Introduction United Nations 1 Introduction United Nations – bitofnews.com The United Nations (UN) was created in 1945 as an international organization whose members are countries, states. Today, the UN has 193 Member States – the latest country to become a UN Member State was the Republic of South Page 9/27

The United Nations has been called everything from ‘‘the best hope of mankind’’ to ‘‘irrelevant’’ and ‘‘obsolete.’’ In this concise overview, Jussi Hanhimaki sheds light on the current debate over the UN's effectiveness as he provides a clear understanding of how it was originally conceived, how it has come to its present form, and how it must confront new challenges in a rapidly changing world. After a brief history of the UN, the author examines its successes and failures as a guardian of international peace and security, as a promoter of human rights, as a protector of international law, and as an engineer of socioeconomic development.

This short introduction to the United Nations analyzes the organization as it is today, and how it can be transformed to respond to its critics. Combining essential information about its history and workings with practical proposals of how it can be strengthened, Trent and Schnurr examine what needs to be done, and also how we can actually move toward the required reforms. This book is written for a new generation of change-makers – a generation seeking better institutions that reflect the realities of the 21st century and that can act collectively in the interest of all.

This Handbook provides in one volume an authoritative and independent treatment of the UN's seventy-year history, written by an international cast of more than 50 distinguished scholars, analysts, and practitioners. It provides a clear and penetrating examination of the UN's development since 1945 and the challenges and opportunities now facing the organization. It assesses the implications for the UN of rapid changes in the world – from technological innovation to shifting foreign policy priorities – and the UN's future place in a changing multilateral landscape. Citations and additional readings contain a wealth of primary and secondary references to the history, politics, and law of the world organization. This key reference also contains appendices of the UN Charter, the Statute of the International Court of Justice, and the Universal Declaration of Human Rights.

THE UNGC is a complicated piece of international law. This book, authored by two experts on the topic of genocide, enables readers to more accurately analyze these horrific events.

With a fresh look at challenges to the UN in Syria, Iran, Russia, and elsewhere, the second edition of this successful text highlights new international trends toward global governance, holistic democracy and human development, and progress on peacebuilding and counterterrorism. A comprehensive guide to the world body's institutions, procedures, policies, specialized agencies, historic personalities, initiatives, and involvement in world affairs, The New United Nations is organized thematically, blending both topical and chronological explanations making reference to current scholarly terms and theories. New to this edition: Fully updated chapters and a new Introduction, including discussion of the Paris Climate Change Agreement, Human Rights Council, and Peacebuilding Commission; New sections on Special Rapporteurs and Special Procedures, the theory and practice of neoliberalism, the UN's endorsement of the ‘‘Responsibility to Protect,’’ and Contact Groups; Unique special section on the student Model United Nations experience; Coverage of the UN's fifteen-year assessment of the Millennium Development Goals and the consequent approval of the Sustainable Development Goals; and eResources with supportive materials and documents.

As the world's only truly universal global organization, the United Nations has become the foremost forum to address issues that transcend national boundaries and cannot be resolved by any one country acting alone. This authoritative reference provides a comprehensive introduction and overview of the work of the UN in key areas of international peace and security, economic and social development, human rights, and humanitarian action.

A review of the first ten years of the world's largest voluntary corporate responsibility initiative.

In August 1941 Churchill and Roosevelt met in a secluded bay off the coast of Newfoundland. It was the first of their wartime meetings and in many respects the most significant. The Atlantic Charter, its result, proclaimed the two leaders' vision of a new world order, a set of principles that would govern international relations with the coming of peace. This remarkable collection of essays is the result of an international conference of American, British, and Canadian scholars held at Memorial University of Newfoundland that marked the 50th anniversary of the historic meeting. The essays discuss both the Charter's formulation and its long-term significance, and provide fascinating perspectives on the Second World War and its aftermath.

Al Kihara-Hunt's Holding UNPOL to Account: Individual Criminal Accountability of United Nations Police Personnel analyzes whether mechanisms that address criminal accountability of United Nations police personnel serving in Peace Operations are effective, and if there is a problem, how it can be mitigated.
