Whether you're an established horticultural therapist, a nursing home administrator, or a gerontology educator, this book will help you design gardens, set up and evaluate programs, and develop curriculum. Horticultural Therapy and the Older Adult Population also includes the results of a survey sent to all registered members of AHTA who work with the older adult population. The survey responses provide information about the institutions and the population served, programming activities, program staffing, program evaluation, and funding. This is the gardening book reimagined for a new generation. A book for people who want to learn how to grow things, but haven't got a clue where to start. With the average person now spending an enormous 8 hours and 41 minutes in front of a screen every day, gardening is an easy way to escape for half an hour. Whether on a rented balcony or a sunny kitchen windowsill, it turns out growing something with your own two hands can make you feel better. Which is where HOW TO GROW comes in. Irreverent and inspiring, this book will equip you with all the know-how and confidence you need to take your first steps into a lifelong gardening love affair - trowel in one hand, drink in the other. From growing your first wonky courgette to completely transforming a shady patio garden, in HOW TO GROW, self-taught gardener Hollie Newton divulges all the secrets she's discovered over the past few years as she's journeyed from gardening novice to vegetable-grower-extraordinaire - all from her pint-sized London garden. With chapters on easy-to-grow veg, fruit, herbs, salad and flowers (along with plenty of tried-and-tested guidance to keeping those plants alive, and delicious recipes to make the most of your haul), you'll also learn everything from the basics of planning your garden to stylish design ideas. Focusing on small and urban spaces and including beautiful photography throughout, this is practical advice for a whole new generation of gardeners.

On the East Coast, so the story goes, newcomers are asked where they come from; on the West Coast they are asked what they do for a living; in Iowa people ask them, "How's your garden doing?" Maybe this is not a true story, but it does epitomize the importance of gardening for Iowans, blessed as they are with the rich glacial soil so hospitable to corn and soybeans. Rural and urban Iowans alike start planning next summer's garden in midwinter, when their plots are still snow-covered and deep-frozen; by state fair time their trees, shrubs, vegetables--including the ubiquitous zucchini--and flowers are thriving. Veronica Fowler's month-by-month guide to gardening in Iowa is a concise, valuable resource for all novice and experienced gardeners. Beginning in January, Fowler presents a monthly checklist to allow gardeners to prioritize seasonal tasks. Her winter chapters focus on garden design, cold-weather gardening, and starting plants from seeds; in spring she moves into soil preparation, shopping for plants, wildflower and rose cultivation, and lawn care basics; summer brings landscaping, flowers for cutting, and organic gardening; and fall involves cold frames, winter-harvest vegetables, forcing bulbs and perennials, trees and shrubs, and ground covers and vines best suited for Iowa's climate as well as information on mail-order suppliers, gardens to visit, where to go for help, and garden club memberships. Tips from some of the more than two thousand members of the Federated Garden Clubs of Iowa round out this plentiful harvest of useful advice. On a day in February when the wind chill is, well, chilling and the forecast calls for more of the same, the arrival of the first garden catalog of the season brings warmth to any gardener. Veronica Fowler's accessible, information-packed book will become part of every gardener's life both indoors and out.

A stylishly photographed guide to creating lush, layered, dramatic little gardens no matter the size of your available space--an urban patio, a tiny backyard, or even just a pot by your door. Petite gardens align with the movement to live smaller and create a life with less stuff and more room for living. But a more eco-friendly and efficient space doesn't have to sacrifice style. In Small Garden Style, garden designer Isa Hendry Eaton and lifestyle writer Jennifer Blaise Kramer show you how to use good design to create a joyful, elegant, and exciting yet compact outdoor living space for entertaining or relaxing. A style quiz helps you focus in on your own personal garden style, be it traditional, modern, colorful, eclectic, minimalist, or globally inspired, then utilize every inch of your yard by considering the horizontal, vertical, and overhead spaces. You'll learn how to design stunning planters and container gardens using succulents, grasses, vibrant-colored pots, and more. Hendry Eaton and Blaise Kramer recommend their favorite plants and decor for small gardens, along with lawn alternatives and inspiration for making garden accents such as a fire pit, front door wreath, instant mini orchard, boulder birdbath, patterned vines, perfumed wall, and faux fountain with cascading plants. However small your garden, Small Garden Style will transform it into a magical, modern outdoor oasis.
