On October 13, 1972, an Uruguayan air force plane carrying members of the Old Christians rugby team—and many of their friends and family members—crashed in the Andes mountains. *I Had to Survive* offers a gripping and heartrending recollection of the harrowing brink-of-death experience that propelled survivor Roberto Canessa to become one of the world's leading pediatric cardiologists. As he tended to his wounded teammates amidst the devastating carnage, rugby player Roberto Canessa, a second-year medical student at the time, realized that no one on earth was luckier: he was alive—and for that, he should be eternally grateful. As the starving group struggled beyond the limits of what seemed possible, Canessa played a key role in safeguarding his fellow

survivors, eventually trekking with a companion across the hostile mountain range for help. No one could have imagined that there were survivors from the accident in such extreme conditions.

Canessa's extraordinary experience on the fine line between life and death became the catalyst for the rest of his life. This uplifting tale of hope and determination, solidarity and ingenuity, gives vivid insight into the world-famous story that inspired the movie *Alive!* Canessa also draws a unique and fascinating parallel between his work as a doctor diagnosing very complex congenital cardiopathies in unborn and newborn infants and the difficult life-changing decisions he was forced to make in the Andes. With grace and humanity, Canessa prompts us to ask ourselves: what do you do when all the odds are stacked against you?

In the first hours there was nothing, no fear or sadness, just a black and perfect silence. Nando Parrado was unconscious for three days before he woke to discover that the plane carrying his rugby team, as well as their family members and supporters, to an exhibition game in Chile had crashed somewhere deep in the Andes. He soon learned that many were dead or dying—among them his own mother and sister. Those who remained were stranded on a lifeless glacier at nearly 12,000 feet above sea level, with no supplies and no means of summoning help. They struggled to endure freezing temperatures, deadly avalanches, and then the devastating news that the search for them had been called off. As time passed and Nando's thoughts turned increasingly to his father, who he knew must be consumed with grief, Nando resolved that he must get home or die trying. He would challenge the Andes, even though he

was certain the effort would kill him, telling himself that even if he failed he would die that much closer to his father. It was a desperate decision, but it was also his only chance. So Nando, an ordinary young man with no disposition for leadership or heroism, led an expedition up the treacherous slopes of a snow-capped mountain and across forty-five miles of frozen wilderness in an attempt to find help. Thirty years after the disaster Nando tells his story with remarkable candor and depth of feeling. *Miracle in the Andes*—a first person account of the crash and its aftermath—is more than a riveting tale of true-life adventure: it is a revealing look at life at the edge of death and a meditation on the limitless redemptive power of love.
