'Pharmaceutics' in its broadest sense is the 'art of the apothecary' or, in simple terms, pharmaceutical

Download Ebook Aultons Pharmaceutics 4th Edition

preparations. It remains a diverse subject in the pharmacy curriculum, encompassing design of drugs, their manufacture, and the elimination of micro-organisms from the products. This books encompasses all

Download Ebook Aultons Pharmaceutics 4th Edition

those areas and pays particular attention to the design of dosage forms and their manufacture.

Aqueous-based film coating has become routine in the pharmaceutical industry.

Download Ebook Aultons Pharmaceutics 4th Edition

This process eliminates the use of organic solvents and thus avoids economic, environmental, and toxicological issues related to residual solvents and solvent recovery. Aqueous-based coating, however, is

Download Ebook Aulton's Pharmaceutics 4th Edition

complex and many variables may impact the final product and its performance. This fourth edition of *Aqueous Polymeric Coatings for Pharmaceutical Dosage Forms* aims to provide insight into the factors and parameters

Download Ebook Aultons Pharmaceutics 4th Edition

that should be considered and controlled for the successful development and commercialization of a coated product. The fourth edition has been revised and expanded to reflect the most recent scientific

Download Ebook Aultons Pharmaceutics 4th Edition

advancements from the literature. The contributing authors explain in detail, using illustrated examples, appropriate steps to solve and ideally avoid formulation, processing, and stability problems and to

Download Ebook Aultons Pharmaceutics 4th Edition

achieve an optimized dosage form. Trade names and chemical names of commercially marketed coatings are used throughout the text to help familiarize the reader with the various materials available for

Download Ebook Aultons Pharmaceutics 4th Edition

pharmaceutical applications.
This book will be a valuable
resource for anyone in the
pharmaceutical industry
working in the area of
aqueous-based film coating.
