Dr. Joseph Murphy (20th May 1898 - 16th Dec 1981), the author of the book grew up in a devout religious home. His father, Denis Murphy, was a deacon and professor at the National School of Ireland. The major focus of Dr. Murphy was to explain things lucidly so that it would explain how it affects any individual. His basic theme was that the solution to all the problems lies within oneself. We are not affected by the outside circumstances rather by our own mindset. He wrote more than 30 books. His best seller is "The Power of your Unconscious Mind". The book, "Believe in yourself" narrates - How to fulfill your Dreams, through best utilization of your capabilities and talent. Thus achieve a big success in your life. Everyone has inborn talent and capability So it is the matter of attitude. One has to stimulate her conscious mind. The book focuses on - 'Making your dreams come true' and 'how to use Subconscious mind in business'. In the author's words - It is just as easy to imagine yourself Successful, as is to imagine failures but far more interesting". The master architect within you will project on the screen of visibility what you impress on your mind. Here mental attitude means your mental reaction to people, circumstances and objects in space. The circumstances can affect you only as you permit them. Your capacity to imagine causes you and enables you to remove all barriers of time and space. You can reconstruct the past through your inner eye. So the most important thing is imagination. If you don't develop imagine power then all the hard work or burning midnight lamp is all fullfille. In nutshell - Always believe in yourself. This attitude surely brings success in life.

This is book is about inspiring people to believe in what's possible for their lives.

A delightful but powerful story that offers children lifelong lessons about believing in themselves, bolstering their self-esteem, and turning the words "I Can't" into "I Can!" Molly has been chosen to be the next Star of the Day! Most kids would be excited. Molly, however, is terrified! She just can't speak in front of her class. She worries all day. She frets all night. "I can't . . . I can't," Molly convinces herself. Or can she? I Can Believe in Myself is a book that challenges children to change the way they think. Other themes in this book include compassion, confidence, and self-esteem as Molly convines her classmates--and even her teacher--that they can, indeed, change their perceptions and do things they never thought possible.
