Learn how to use messaging technologies to build responsive and resilient applications for mobile devices and web browsers. With this hands-on guide, you'll use the STOMP and MQTT messaging protocols to write iOS and web applications capable of sending and receiving GPS and device sensor data, text messages, and alerts. Messaging protocols are not only simple to use, but also conserve network bandwidth, device memory, and batteries. Using this book's step-by-step format, author Jeff Mesnil helps you work with Objective-C and JavaScript libraries, as well as the protocols. All you need to get started are basic programming skills. Understand basic messaging concepts and composition Learn two common messaging models: point-to-point and publish/subscribe Use STOMP to write an iOS application that sends GPS data, and a web app that consumes the data Build an iOS app with MQTT that tracks and broadcasts device motion data, and a web app that displays the data and sends alerts Extend STOMP to filter, prioritize, persist, and expire messages Take a complete tour of STOMP and MQTT, including features not used in the book's sample apps

Everything about Adria Dawson's life has changed in unimaginable ways. Now she must face the ultimate challenge and risk not only her life but the lives of everyone she loves at the wrathful hands of Isaac Mayfair's father, Sovereign of the werewolf world. Determined to help unravel a mysterious message deeply rooted in an unhinged mind, Adria becomes obsessed with traveling into Aramei's turbulent past. Meanwhile, Adria and the Mayfairs are doing everything they can to smoke out and trap the Praverian traitor. But what could a simple girl like Adria ever do that could be considered an act of war? The landscape of the werewolf world will be forever changed in the climactic conclusion to The Darkmoon Saga.

Women in the Second Anglo-Boer War demonstrated great heroism. Theirs is a remarkable history derived from diaries and letters written during their incarceration in concentration camps. Against the Tide illustrates the fortitude of the brave Dutch women and children in their struggle against impossible circumstances in the attempt to save their country from the stronger forces of the British usurper. Not many today are aware that the British government established concentration camps to imprison innocent civilians nearly forty years before Germany did so. Their intention was to cause a quick surrender by such intimidation. However, the imprisoned Dutch women watching their children dying in these camps, developed a deep animosity toward their aggressors, and contrary to expectations, it only spurred the women on to more defiance that then strengthened the men's resolve to keep fighting. Among the few British sympathizers, Emily Hobhouse, a tenacious, justice-seeking English woman, spearheaded a major public awareness of the untenable conditions in the camps. She defied her own government in a risky plan to help ease the suffering of the captive women and children in South Africa. The Boer women demonstrated many acts of bravery including daring espionage and actually fighting alongside their men against overwhelming enemy forces. And after the war was lost, they played an active role, in forging a new language and a new Afrikaner nation from the embers of that tragedy.

Humility, or holding power loosely for the sake of others, is sorely lacking in today's world. Without it, many people fail to develop their true leadership potential and miss out on genuine fulfillment in their lives and their relationships. Humilitas: A Lost Key to Life, Love, and Leadership shows how the virtue of humility can turn your strengths into true greatness in all areas of life. Through the lessons of history, business, and the social sciences, author John Dickson shows that humility is not low self-esteem, groveling, or losing our distinct gifts. Instead, humility both recognizes our inherent worth and seeks to use whatever power we have at our disposal on behalf of others. Some of the world's most inspiring and influential players have been people of immense humility. The more we learn about humility, the more we understand how essential it is to a satisfying career and personal life. By embracing this virtue, we will transform for good the unique contributions we each make to the world.

Today, eight thousand miles, seven years, and 175 pounds later, the gloriously gorgeous Shauna is literally half the woman she used to be. Hysterically funny and heart-wrenchingly honest, *The Amazing Adventures of Dietgirl* includes travel tales from Australia to Paris to Red Square, plus romance when she meets the man of her dreams in a Scottish pub. A debut author's darkly suspenseful take on New Adult romance--and a perfect read for fans of Veronica Roth's *Divergent*. Twenty-two-year-old Evalyn Ibarra never expected to be an accused killer and experimental prison test subject. A year ago, she was a normal college student. Now she's been sentenced to a month in the compass room—an advanced prison obstacle course designed by the government to execute justice. If she survives, the world will know she's innocent. Locked up with nine notorious and potentially psychotic criminals, Evalyn must fight the prison and dismantle her past to stay alive. But the system prized for accuracy appears to be killing at random. She doesn't plan on making friends. She doesn't plan on falling in love, either. "Holy jawdropping creepy bots! Hot, funny, and terrifying... if *The Running Man* and *The Hunger Games* had a baby on steroids: this would be it. You will be glued to each amazingly horrifying page from beginning to end." — Molly McAdams, New York Times bestselling author "THIS IS INCREDIBLE!!! I couldn't put it down! Suspenseful, romantic and thought provoking, *The Wicked We Have Done* had me rooting for criminals while pondering morality and questioning humanity. I can't wait for the sequel." — Jamie Blair, author of *Leap of Faith* "A heart-pounding thrill ride! *The Wicked We Have Done* will make you gasp, smile and cry - an emotional rollercoaster in book form. I absolutely loved it!" — Susanne Winnacker, author of *Imposter Sarah Harian* received her M.F.A. from Fresno State University. She currently lives in the Sierra Nevadas with her husband and their dog and swears she'll never live anywhere other than the forested mountains—they're too inspiring. This is her first novel.
