A framework for the theory and practice of organizing that integrates the concepts and methods of information organization and information retrieval. Organizing is such a common activity that we often do it without thinking much about it. In our daily lives we organize physical things—books on shelves, cutlery in kitchen drawers—and digital things—Web pages, MP3 files, scientific datasets. Millions of people create and browse Web sites, blog, tag, tweet, and upload and download content of all media types without thinking "I'm organizing now" or "I'm retrieving now." This book offers a framework for the theory and practice of organizing that integrates information organization (IO) and information retrieval (IR), bridging the disciplinary chasms between Library and Information Science and Computer Science, each of which views and teaches IO and IR as separate topics and in substantially different ways. It introduces the unifying concept of an Organizing System—an intentionally arranged collection of resources and the interactions they support—and then explains the key concepts and challenges in the design and deployment of Organizing Systems in many domains, including libraries, museums, business information systems, personal information management, and social computing. Intended for classroom use or as a professional reference, the book covers the activities common to all organizing systems: identifying resources to be organized; organizing resources by describing and classifying them; designing resource-based interactions; and maintaining resources and organization over time. The book is extensively annotated with disciplinary-specific notes to ground it with relevant concepts and references of library science, computing, cognitive science, law, and business.

Here's what you, the brave reader, need to know. Fire Down Below has a sequel. I know; everyone's super surprised that Amazon allowed me to keep the poop-your-pants book up all this time. In Fire in the Hole, Dove's sausage-loving neighbor has realized he's wildly in love with her lurchingly awkward butt. Johnson is the pharmacist of her dreams until he tells her over Twitter-goddamnit-that he has plans with an ex-girlfriend. Duke scrapes Dove off her apartment floor and takes her to his cousin's wedding. As Pissboy and Cross-eyed Knockers tie the knot, Duke could just kick himself in the balls when he sees Johnson and Beth at the same venue driving Dove insane with jealousy. Will Dove give up everything, even her self-esteem, to get Johnson's johnson between her legs? Or will the scent of spiced meat inspire Dove to rip off Duke's sausage-and-egg underwear forever? Yup. I can publish this. No law against it... yet. "Reading this book will give you haemorrhoids." EL James, #1 NTY Bestseller "Please take this garbage and shove it up the hole before it catches fire. Possibly the worst book ever." Joy Fulcher, Amazon Best Selling Author "Good God. Not again." Tijan NYT Bestseller (who allows payments for friendship) "Last book came with maxi pads. What's next? An industrial-sized tub of Vagisil?" Tina Reber, NYT Bestseller "I think I'd rather read a bowl of alphabet soup Elle Jefferson Queen unicorn Fool me once, shame on you. Nancee Cain, Amazing Author "Hang on to your vagina (or mine), Debra Anastasia is writing another sick piece of shit? Meghan Quinn, Queen of the Obscene "Takes an asshole to recognize a crap story." Season Vining, Amazing Author "I thought seeing the search results for 'Blue Waffle' was the most traumatic experience I'd ever suffered. But no. This book was far worse." Cora Brent, NYT Bestseller "This book had my anus puckering in fear!" Anne Mercier, Amazon Bestselling Author "Debra broke the hole code! What happens in the hole is supposed to stay in the hole!"
