Some people believe that déjà vu is a spiritual experience—that it's a sign of psychic powers or evidence for reincarnation. They say we feel like we've been in a situation before because we have—in a past life. Christians, of course, reject that theory. There is nothing in the Bible that attempts to address or explain déjà vu.

~~Déjà Vu (Titan, #7.5) by Cristin Harber - Goodreads~~

If you've ever found yourself in a situation or place that feels all too familiar, as if you've been there before, you're likely experiencing déjà vu. It can be a dreamlike, surreal feeling,...

Déjà Vu, The Story, two years in the making, is designed to comfort the Christian, torment the sinner, and anger the devil. The story drills into the heart of man, not only his fate, but even God's destiny; if we are so bold to make an observation, you be the judge. This amazing story begins in heaven, descends into the world, and then we see the fall of heaven. Christ descends to the earth and becomes like man through the birth of a virgin to redeem all of mankind and then descends even further into Hades. There He restrains Satan and then ascends into paradise, then once again is back on the cross. This amazing story shows us the rapture when the Lord comes and then we're in heaven, where it all started. See this prospective view of God and the understanding of His plan. It has been said, "In the last days, all things will be revealed." This is the book you've been waiting for. A must-read for all Christians alike. A must-read for the unsaved world and their destination. It answers the ultimate questions: Why were we born? Why are we here? Where is the final journey? What is the end to come? It will give you another view of our God-the Alpha and the Omega, the Beginning and the End. Based on Déjà Vu, The Poem. Copyright March 20, 1995, Rudy Ezequiel Saucedo.

The correlated concepts of the déjà-vu and the authentic suggest that all cultural productions are per se palimpsests whose construction is the result of such processes as reprise, recycling, and recuperating. Reprise is approached as various forms of citation, reference and intertextuality; recycling is defined as commodification and intellectual impoverishment; while recuperating implies the ideological process that makes reappropriation possible. By covering a wide spectrum of research interests, from literature to music, art and the cinema, the seventeen contributions in English or in French explore the political and ethical implications inherent in the creation of culture.

The road to love is rocky ...

In the tradition of Michael Crichton and Margaret Atwood, an apocalyptic thriller that pits cutting-edge science against God and asks—who will win? A strange phenomenon is sweeping the globe. People are having visions, seeing angels, experiencing events that defy reality. Bizarre accounts pour in from distant places: a French teenager claims to have witnessed Joan of Arc being burned at the stake; a man in New York dies of malnutrition in a luxurious Central Park apartment; a fundamentalist Christian sect kidnaps and murders a geneticist. Then there is the graffiti WE ARE BECOMING that has popped up in every major city around the world, in every language. And everywhere people are starting to talk about John Astor, the mysterious author of the book that seems to be at the center of it all. After a rash of suicides around the world by individuals experiencing the time traveling hallucinations, psychiatrist John Macbeth and a team of FBI agents and scientists assemble to find out what's going on before it's too late. Is this a spiritual phenomenon or something more sinister?

Cornerstone Verse "And it shall come to pass in the last days, saith God, I will pour out of my Spirit upon all flesh: and your sons and your daughters shall prophesy, and your young men shall see visions, and your old men shall dream dreams" (Acts 2:17). Have you ever had a déjà vu experience and were convinced you had been in that place, doing the same thing with the same people around, in the same environment, though you are certain you have never been in that place before? Why do we have these déjà vu experiences where we are convinced we have lived through the same thing before but consciously understand we have never been in the place prior to this experience? What does déjà vu mean and where did the term originate? This is simple to define yet challenging to explain. It is a French term meaning "deja," already + vu, "seen" or already seen. The dictionary indicates it is "the illusion of having already experienced something actually being experienced for the first time." This is not to be confused with the overly utilized colloquial statements used today to explain the monotony of an event that occurs redundantly. Scientists, psychologists, counselors, and the like, have made numerous attempts to explain this phenomenon, though the tendency is to relate the extraordinary with the ordinary to make sense of it based upon empirical data. In the case of déjà vu, mankind will never be able to utilize statistical analysis because it defies this kind of scrutiny. God reveals certain things to us in His perfect timing, and this is oftentimes not our timing. God desires to bring us closer to His will for us, not by forcing us into choices, but by allowing free will and providing a second chance to do what is right in His eyes. This book was written as a direct result of God speaking to me in a dream regarding déjà vu and provides an in-depth discovery of déjà vu experiences as it relates to second chances God offers to us during the course of our lifetime.
