Their arrival has ignited a series of fierce public debates on both sides of the Atlantic about religious freedom and tolerance, terrorism and security, gender and race, and much more. How can Christians best respond to this situation? In this book theologian and ethicist Matthew Kaemingk offers a thought-provoking Christian perspective on the growing debates over Muslim presence in the West. Rejecting both fearful nationalism and romantic multiculturalism, Kaemingk makes the case for a third way—a Christian pluralism that is committed to both the historic Christian faith and the public rights, dignity, and freedom of Islam.

A fresh response to the problem of illegal immigration in the United States through the context of Christian theology.

Considering its prominent role in many faith traditions, surprisingly little has been written about hospitality within the context of religion, particularly Islam. In her new book, Mona Siddiqui, a well-known media commentator, makes the first major contribution to the understanding of hospitality both within Islam and beyond. She explores and compares teachings within the various Muslim traditions over the centuries, while also drawing on materials as diverse as Islamic belles lettres, Christian reflections on almsgiving and charity, and Islamic and Western feminist writings on gender issues. Applying a more theological approach to the idea of mercy as a fundamental basis for human relationships, this book will appeal to a wide audience, particularly readers interested in Islam, ethics, and religious studies.

Churches are traditionally among the first to respond to the call to aid strangers in distress. In this age of globalization, one group of strangers in particular—asylum seekers and refugees—is in urgent need of welcome as they flee their homelands in search of safety. This same group, however, faces hostility and rejection in many places. What should be the church ' s response? This book argues that Christian hospitality offers a powerful theological and pastoral response to such vulnerable strangers in our midst. For that to happen, the church must answer two questions: " What is Christian hospitality? " and " How do we put it into practice with refugees and asylum seekers? " Part One answers the first question with a cross-disciplinary study of sacred hospitality in both ancient and modern times. Part Two tackles the second with a fascinating case study of the church ' s outreach to refugees and asylum seekers in an international Chinese city. As communities worldwide receive refugees and asylum seekers, this book offers Christian hospitality and the Hong Kong experience as one hopeful response to needy strangers at our doorstep. It is a welcome theological and practical resource for refugee ministry in the twenty-first century.

The modern chasm between "secular" work and "sacred" worship has had a devastating impact on Western Christianity. Drawing on years of research, ministry, and leadership experience, Kaemingk and Willson explain why Sunday morning worship and Monday morning work desperately need to inform and impact one another. Together they engage in a rich biblical, theological, and historical exploration of the deep and life-giving connections between labor and liturgy. In so doing, Kaemingk and Willson offer new ways in which Christian communities can live seamless lives of work and worship.

For most of church history, hospitality was central to Christian identity. Yet our generation knows little about this rich, life-giving practice.

This volume gathers together expertise from academics and practitioners in order to investigate the interconnections and interactions between religion, migration and the refugee regime.

In this culmination of his widely read and highly acclaimed Cultural Liturgies project, James K. A. Smith examines politics through the lens of liturgy. What if, he asks, citizens are not only thinkers or believers but also lovers? Smith explores how our analysis of political institutions would look different if we viewed them as incubators of love-shaping practices—not merely governing us but forming what we love. How would our political engagement change if we weren't simply looking for permission to express our "views" in the political sphere but actually hoped to shape the ethos of a nation, a state, or a municipality to foster a way of life that bends toward shalom? This book offers a well-rounded public theology as an alternative to contemporary debates about politics. Smith explores the religious nature of politics and the political nature of Christian worship, sketching how the worship of the church propels us to be invested in forging the common good. This book creatively merges theological and philosophical reflection with illustrations from film, novels, and music and includes helpful exposition and contemporary commentary on key figures in political theology.
