Have you ever wondered what the difference is between Gothic and Gothic Revival, or how to distinguish between Baroque and Neoclassical? This guide makes extensive use of photographs to identify and explain the characteristic features of nearly 300 buildings. The result is a clear and easy-to-navigate guide to identifying the key styles of western architecture from the classical age to the present day.

There are a lot of good books available to help people write better. They include dictionaries, usage guides, and various types of writers’ manuals – and professional writers ought to have many of those books on their bookshelves. But most architects and other design and construction professionals are not professional writers. Instead, they are people who spend a large part of their professional lives writing. That’s a big difference, and that’s where this book will help. The Architect’s Guide to Writing has been written not by an English major, but by Bill Schmalz, an architect who knows the kinds of documents his fellow professionals routinely have to write, and understands the kinds of technical mistakes they often make in their writing. This book is designed to meet the specific needs of design and construction professionals. It’s not going to waste their time with the things that most educated professionals know, but it will help them with the things they don’t know or are unsure of. It’s not a Chicago Manual-sized encyclopaedic reference that includes everything any writer would ever need to know, because architects don’t need to know everything. But what they do need to know – and what they use every day in their professional lives – has been assembled in this book.

This book is a delightful guide to understanding and identifying architectural styles for kids and their parents Why do houses look the way they do? Why do dome have small windows, while others seem to be all glass? Why do some hug the landscape, while others are tall with very steep roofs? Why do dome people live in mansions, while others live in mobile houses? Can you imagine a house that looks like an elephant or a shoe? Children and adults will learn about the history of domestic architecture, the styles of the houses we live in, and the terms for the architectural elements that compose the buildings. Use the pictorial field guide to investigate your own house, then take it along on family outings to identify different architectural details. Under Every Roof features more than 60 houses from 30 states and the District of Columbia that are listed in the National Register of Historic Places; many of these are house museums that are open to the public. Kids need to understand the house they live in, so the book also includes a wide variety of regional styles and architectural types. The full-color, watercolor illustrations add a unique, gentle humor to the text.

A hand-drawn guide to architectural styles throughout history Architectural Styles is an incomparable guide to architectural styles across the centuries and around the world. Modeled after an architect's plein air sketchbook, the volume features hundreds of detailed drawings by esteemed architectural illustrator Robbie Polley alongside incisive and informative descriptions. This unique guidebook takes readers from Europe and the Americas to Egypt, China, and India. It covers a host of historical and contemporary architectural styles, from ancient and classical to Pre-Columbian, Romanesque, Renaissance, Palladian, art nouveau, Brutalist, and biomorphic. It describes the histories and characteristics of the building traditions of each era and region of the world, and looks at key architectural elements such as buttresses, spandrels, curtain walls, and oculi. The book also includes a section on building parts—from domes and columns to towers, arches, roofs, and vaulting—along with a detailed glossary and bibliography. Comprehensive and authoritative, Architectural Styles is an essential resource for architects and designers and a must-have illustrated guide for anyone interested in architecture or drawing.
