borders, banks and nations are all things we create. We have volition in respect to these things. We can choose how they should be. But if we are to make such choices, if we are to reorganise our world along ethical lines, then we must see the social and natural worlds clearly for what they are. We must unshackle our minds.

get the skills to help them to fly to the top like that bird of prey which is the eagle. In this book, the readers will learn how to overcome obstacles and to cultivate the fruit of persistence which is an essential factor in the process of transformation of desire into its monetary equivalent. The basis of persistence is the power of will.

Acces PDF Ethical Intelligence Five Principles

When this power and desire combine correctly, they form an irresistible combination, the perfect one to help you overcome your failures. There are four simple steps which lead to the habit of persistence. This does not require a large amount of intelligence or a special education, but time and minimal effort.

Acces PDF Ethical Intelligence Five Principles

The four steps are as follows: 1- A target set backed by a burning desire to achieve it. 2- A definite plan, expressed in continuous action. 3- A closed mind to any negative influence (including negative suggestions of relatives, friends and others). 4- A harmonious agreement with one or more persons, able to lead someone
