Comprehensive instructions covering all components, with new 168 page 6.0 liter supplement.

This manual and supplement covers all 6-cylinder powered XJS models. Includes coverage of ABS brake systems, body mods and mods brought about with the intro of automatic transmission 4 litre engines.

A small investment in this book could save you a fortune. With the aid of this book's step-by-step expert guidance, you will discover all you need to know about the car you want to buy. The unique point system will help you to place the car's value in relation to condition.

A renowned Jaguar expert offers a comprehensive historical review of the highly collectable XJS series of coupes, cabriolets and convertibles with particular emphasis on quality evaluation, maintenance and upgrades. Jaguar XJS takes the reader through the 20-year history of a model series which, after a lukewarm reception in 1975 by Jaguar enthusiasts who expected a replacement for the famed E-Type, matured through many evolutions into some of the most stylish cars ever to wear the Jaguar badge, earning along the way an enviable reputation on the international motor racing scene.

This book tells the story of how John Egan gradually overcame the odds and, piece by piece, rebuilt this great company, winning over the workforce, the overseas dealers and, most important of all, the customers. Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most loved motor cars of all time.It is an amazing story that will appeal equally to car enthusiasts, those in business and readers interested in social history.

For anyone with an interest in, or who is thinking of buying, one of the already classic Jaguar XK sports cars from the 1996 to 2005 period, this Essential Buyer ' s Guide is a vital requirement. All the models are covered, from the early 4.0-litre models with the infamous Nikasil engines, through to the very last and highly sophisticated 4.2-litre S, with mention of the special editions available in selected markets. All models are looked at in detail, and analysed for their strengths and weaknesses to provide the best possible advice on what to look for and how to buy the best car you can afford. A handy pocket-sized guide, that will always be at your side for constant reference.

This book covers British car electrical systems from 1950 to 1980. Particular emphasis is placed on the Lucas, Smith and SU components that were ubiquitous in British cars of the period. Each major system is given its own chapter, providing theory, component parts and full system operating explanations. Modifications are suggested for those wishing to bring performance and reliability up to more modern standards. Fault-finding charts, cross referenced to the appropriate pages in the book, are provided throughout.

The Jaguar XK8 was launched to great acclaim in 1996 as the successor to the XJS, and the model range has been built on ever since. With styling cues taken from the E-type and the XJ220 supercar, and powered by a new 4.0-litre V8 engine, the XK8 found instant success on both sides of the Atlantic. Nearly 10 years after its launch, the styling remains virtually unchanged, which says a lot for the original concept. This fascinating, all-color book is essential reading for all XK8 owners and enthusiasts.

The Jaguar XJR-9 is the Group C sports racing car built by Jaguar for the 1988 racing season, winning on its debut at the Daytona 24 Hours, and going on to take victory at the Le Mans 24 Hours (Jaguar's first win at the French classic since 1957). The car also took Jaguar to victory in the 1988 Teams' World Championship, and Drivers' World Championship with Martin Brundle. Works cars ran in the American IMSA Championship (running in Castrol livery), as well as the World Sports Car Championship. The XJR-9 is one of the most evocative sports-racing cars of the 1980s, thanks to its success, instantly recognizable Silk Cut livery, and unforgettable V12 engine note. This Manual tells the complete design and engineering story of the XJR series of sports-racing cars, focusing on the XJR-9, and featuring extensive input from many of the engineers and drivers involved.

An exact reprint of the original factory document. Packed with useful technical information, repair guides and diagrams.
