This book: Strategic Management of Technological Innovation, Sixth Edition is written for courses that may be called strategic management of technology and innovation, technology strategy, technology innovation, technology management, or for specialized new product development courses that focus on technology. The subject is approached as a strategic process, and as such, is organized to mirror the strategic management process used in most strategy textbooks, progressing from assessing the competitive dynamics of a situation, to strategy formulation, to strategy implementation. Highlights: 1. Complete Coverage for Both Business and Engineering Students 2. New Short Cases and New Indian Cases 3. Cases, Data, and Examples from around the World 4. More Comprehensive Coverage and Focus on Current Innovation Trends

Emma Seaton was comfortably if unexcitingly engaged to Victor Harrison; he was a wealthy business tycoon, and Emma could look forward to a life of ease and luxury with him—but was that all she wanted from life? She became even more aware of her doubts about Victor when she met the disturbing Miguel Salvaje, who made no secret of his attraction to her, and Emma soon admitted to herself that she in turn was attracted to him. The situation grew even more intense when Miguel virtually blackmailed her into marrying him instead of Victor and bore her off to his home in Mexico. The tense situation between them might have resolved itself happily, however, had Emma not discovered that she was expected to share her home with a third person—someone even more overpowering than Miguel himself.

This title contains the proceedings of the 2013 5th International Conference on Advanced Computer Control, held in Singapore. The topics covered include: Modern and advanced control strategies; human-machine systems; multimedia and communication systems; database systems; robotics and automation; and much more.

The Victorian Railways narrow gauge lines portrayed the very essence of the Australian pioneering spirit, with their ingeniously constructed routes traversing picturesque, forested and rugged country. Built in the era of the horse and cart, when railways had a monopoly over the conveyance of freight and passenger alike, the narrow gauge lines served their purpose, before being rapidly overtaken by road transport. With their toy-like appearance, the little trains were beloved by children, and this factor was to bring about their salvation. Through the valiant actions of a few spirited individuals, Victoria's narrow gauge heritage lives on, with the re-born Gembrook and Walhalla lines among the most revered and admired railways in Australia. The Narrow Gauge is a comprehensive coffee table style book, a fitting salute to a fascinating chapter in Victoria's history - the story of four character-filled railways, from their inception, through to present day operations and relics.The history of the Victorian Railways narrow gauge lines - Wangaratta to Whitfield, Upper Farntree Gully to Gembrook, Colac to Beech Forest and Crowes, and Moe to Walhalla - from construction right through to closure. Fascinating recollections by railwaymen, locals and railway enthusiasts, including Gerald Dee, Ron Kain, Wal Larsen, Harold Lindsay, Don Marshall, Graeme O'Brien, Jim Rae, Harold 'Joe' Ramage, Dave Scott and Reg Walton - fond memories of a bygone era. A full description of all VR narrow gauge locomotives and rolling stock.A spectacular array of B&W and colour photographs - a comprehensive collection, including rare early 1950s colour transparencies. Outstanding images by Mal Austin, Phil A'Var, Ray Bruce, Milton Collins, John Dare, Wilf Henty, Ron Kain, William Lee, Eric Quinlan, Peter Ralph, Michael Schrader and many others.Narrow gauge salvation - the remarkable story of two great railway preservation efforts, from Puffing Billy to the Walhalla Goldfields Railway.Ghosts of the narrow gauge - an illustrated guide to the remains and relics.

Burgelman, Maidique, and Wheelwright have written the market leading text for a course in technology and innovation. This text covers the latest research by using a combination of text, readings, and cases. Based on reviewer response to a survey, the authors have updated many of the cases and instructors found outdated or lacking. As in the current edition, the book has a strong case foundation at Harvard and Stanford. Classic cases such as Claire McCloud have been kept, while newer cases such as Intel Corporation in 1999 have been added. There is also a strong set of readings from sources such as Harvard Business Review, California Management Review, and Sloan Management Review.

Luigi the rooster wins fame and fortune when the star of the Cosmopolitan Opera Company and his understudy both come down with chicken pox on the same night.

After seventeen-year-old Thais Allard loses her widowed father in a tragic car accident, she is forced to leave the only home she's ever known to live with a total stranger in New Orleans. New Orleans greets Thais with many secrets and mysteries, but none as unbelievable as the moment she comes face to face with the impossible—an identical twin, Clio. Thais soon learns that she and the twin she never knew come from a family of witches, that she possesses astonishing powers, and that she, along with Clio, has a key role in Balefire, the coven she was born into. Fiery Clio is less than thrilled to have to share the spotlight, but the twins must learn to combine their powers in order to complete a rite that will transform their lives and the coven forever.
