~~Leadership Roles and Management Functions in Nursing ...~~

Both management and leadership are functional processes but leadership is never a role. Thus we need to shift our focus to what management skills it takes to run a large company. Leadership is an occasional act, an influence process. CEOs only show leadership occasionally, specifically when they influence people to think or act differently.

Describes the qualities of a good manager, discusses the impact of stress, and explains how to formulate strategy

Written specifically for the experienced nurse enrolled in an RN-to-BSN program, this text guides nurses through an interactive critical thinking process to become effective and confident nurse leaders. All nurses involved with direct patient care already rely on similar strategies to oversee patient safety, make care decisions, and integrate plan of care in collaboration with patients and families. This text expands upon that knowledge and provides a firm base to reach the next steps in academia and practice, enabling the BSN-prepared nurse to tackle serious issues in care delivery with a high level of self-awareness and skill. Leadership and Management Competence in Nursing Practice relies on a keen understanding of what experienced nurses already bring to the classroom. This text provides a core framework and useful skills and strategies to successfully lead nursing and healthcare forward. Clear, concise chapters cover leadership skills and personal attributes of leaders with minimal
