First published in 1951, this is the simple, heart-warming story of a baby left by its mother in a great cathedral in New York, and of the man who found it. Opening immediately after World War I, the story centers on Paul Taggart, a returned soldier, who had lost an arm in the war and who also carried on his face a disfiguring scar. It was at Christmas time that Paul entered the cathedral and there, in the crib, discovered Peter, the small helpless foundling who was to mean so much to him in the future... A compassionate, moving story.

With three months remaining of her marriage of convenience, Savannah is ready to say goodbye to her spoiled rich boy of a husband. He's annoying and argumentative and used to always

getting his way. Sure, he's hot. And maybe occasionally a little bit sweet. But she doesn't want to stay married to him. Not at all. He needed a wife for a year so he could inherit his grandmother's fortune, and she needed to pay off her family's debts. That's all their marriage has ever been about. So she really needs to stop falling into bed with him.

A Vintage Shorts “Short Story Month” Selection Driving through the cornfields in rural Nebraska, Burt and Vicky run over a young boy—only to discover that they may not be responsible for his death. Out in the corn, something is watching them, and help is nowhere to be found. From the unrivaled master of horror and the supernatural, Stephen King. “Children of the Corn,” first collected in the extraordinary collection *Night Shift* in 1973 and then adapted into a

improbable rise from snowmobile manufacturer in backwoods Quebec to the worlds largest producer of rail and mass transit equipment and the third-largest aircraft manufacturer has been a source of national pride, especially in Quebec. Selling 94 per cent of its trains, planes, snowmobiles and watercraft outside the country, and with sales of \$24 billion, and 75,000 employees in 24 countries, Bombardier had become a global powerhouse. But this dazzling growth masked a host of problems.

"How do I know I covered all the requirements? Where do I begin? When should I stop? Did I miss something that will result in unpleasant surprises down the road?" when you were assigned your early requirements development tasks. In this book, I introduce a requirements development roadmap that will guide you from start to finish. It is a plan carefully prepared and organized around consecutive stations. At each station, I tell you:

1. The target objective, and why you need to think about that particular objective at that specific point in time
2. Which elicitation techniques will best serve the objective, and which questions to ask in order to capture the information you need
3. Which analysis tools to apply in order to analyze the information from different angles
4. How to document the output of the exercise that you just performed
