So we got the kart on time, completely put together, and ready for the track. This was completely unexpected, and a great surprise. Not to mention, Holden found a way to save me money (which in this sport, every dime saved is a bonus). So we got the kart, my kid slipped in the seat and he fit perfectly. Seat size and location was ideal.

In 1959 the first rotary valve engine exclusively for karting was designed by Giovanni Parilla with the contribution of Cesare Bossaglia, a mechanical engineer. The US version of this engine was named "Thunderbolt", the Italian translation is "Saetta". In 1962 Saetta Company was created, which manufactured go-kart engines, with Giovanni Parilla as the managing director.

In the early 60s, while working at Moto Parilla, he saw a new product having success in the USA and immediately understood its potential: the Go-Kart. He then convinced Giovanni Parilla to join the market and produce the very first specific Karting engines, dedicated in the beginning to North American market and lately to a worldwide distribution.
