Clear and accessible, this textbook provides a step-by-step guide to textual analysis for beginning translators and translation students. Covering a variety of text types, including business letters, recipes, and museum guides in six languages (Chinese, English, French, German, Russian, and Spanish), this book presents authentic, research-based materials to support translation among any of these languages. Translating Texts will provide beginning translators with greater text awareness, a critical skill for professional translators. Including discussions of the key theoretical texts underlying this text-centred approach to translation and sample rubrics for (self) assessment, this coursebook also provides easy instructions for creating additional corpora for other text types and in other languages. Ideal for both language-neutral and language-specific classroom settings, this is an essential text for undergraduate and graduate-level programs in modern languages and translation.

Following in the tracks of the author ' s well-known Alfa DOHC tuning manual, Jim Kartalamakis describes all kinds of useful information and techniques to increase power, performance and reliability of V6 Alfas and their engines. This book is the result of much research and firsthand experience gained through many projects concerning Alfa V6 rear-wheel drive models, from the GTV6 series to the last of the 75 3.0 models. A wealth of completely new information can be found here regarding cylinder head mods, big brake mods, LSD adjustment
