Anywhere football is played, Texas is the force to reckon with. Its powerhouse programs produce the best football players in America. In *The Republic of Football*, Chad S. Conine vividly captures Texas's impact on the game with action-filled stories about legendary high school players, coaches, and teams from around the state and across seven decades. Drawing on dozens of interviews, Conine offers rare glimpses of the early days of some of football's biggest stars. He reveals that some players took time to achieve greatness—LaDainian Tomlinson wasn't even the featured running back on his high school team until a breakthrough game in his senior season vaulted him to the highest level of the sport—while others, like Colt McCoy, showed their first flashes of brilliance in middle school. In telling these and many other stories of players and coaches, including Hayden Fry, Spike Dykes, Bob McQueen, Lovie Smith, Art Briles, Lawrence Elkins, Warren McVea, Ray Rhodes, Dat Nguyen, Zach Thomas, Drew Brees, and Adrian Peterson, Conine spotlights the decisive moments when players caught fire and teams such as Celina, Southlake Carroll, and Converse Judson turned into Texas dynasties. Packed with never-before-told anecdotes, as well as fresh takes on the games everyone remembers, *The Republic of Football* is a must-read for all fans of Friday night lights.

One night, anthropologist Cathy Winkler awoke from a deep sleep to discover a rapist standing by her bed. For the rest of that night, she lived a woman's worst nightmare as she was repeatedly raped and beaten by the stranger. The event changed her life into something resembling a Kafka novel: a justice system that bungled the case then blamed the victim, a social service system that provided no services or comfort, uneasy and awkward friends, exploitative media, and insensitive university administrators and colleagues. The pain of those four hours was dwarfed by the frustration of her decade-long fight to find the rapist and bring him to justice, ultimately through one of the first successful uses of DNA evidence in a rape case. Winkler, a brilliant observer and ethnographer, chronicles this struggle here—including her

own growing awareness of her power to stare down district attorneys, to use the media to her own ends (including segments on 48 Hours and Court TV), and, ultimately through her persistence, to put the rapist behind bars for life. As a story of triumph over adversity, *One Night* is an inspirational work. And it provides a model of how researchers can turn the lens inward and incisively examine ourselves and our own world.

Early volumes consisted of rules with a separate publication for text. Later volumes consist of text and rules, (at first, the official rules, later the "read-easy" rules.) Vols. for 1976-78 do not include rules.
