A sometimes hilarious, occasionally heartbreaking, and always entertaining joint memoir by Joseph Fink, cocreator of *Welcome to Night Vale*, and his wife, writer and performer Meg Bashwiner, chronicling the first ten years of their relationship from both sides. There are two sides to every love story. In 2009, 22-year-old Joseph Fink, newly arrived to New York City from the West Coast, was juggling odd jobs to pay the rent and volunteering with a theater company in the East Village so he could snag free tickets to their shows. Meg Bashwiner, a 22-year-old aspiring performer and playwright, was living with her parents in New Jersey, working a desk job and commuting to her internship with that same East Village theater company. Joseph and Meg's stories meet when they both find themselves selling tickets in a cramped box office. They quickly became friends. Within a year, they were a couple. Within five years they were touring the world, performing on some of the world's greatest and not so great stages. In this candid, soul-baring memoir, Joseph and Meg recount their first ten years together, each telling their story as they remember it, without having consulted the other. We hear both sides of their first kiss, first breakup, first getting back together, the death of a father, marriage, international fame, world tours, mental illness, and discussions about having children. Sometimes, they recall things differently—neither agrees on who paid for the morning after pill on their first date. Sometimes they remember the exact same details in the same way—but still have their own narrative on just what those details mean. Poignant, funny, and real, alternately told in Joseph and Meg's remarkably different, yet equally compelling voices, *The First Ten Years* is the story of two individuals finding their way in the world and becoming "adults" as they learn to become a couple.

message of love? "Love and hate are just two sides of the same coin. But with love something very drastic has happened. It is unimaginable how this drastic step was taken by people who had all the good intentions in the world. You may never have even suspected what has destroyed love. It is the continuous teaching of love that has destroyed it. Hate is still pure -- love is not."

The Two Sides of Being Single: A Biblical Perspective is a book that is dedicated to single Christians who are either desiring to maintain a single Christian life or who are seeking God to bless them with a husband or a wife. The book is divided into two parts. The first part of the book focuses on maintaining a single Christian life. This is not an easy task, but it can be accomplished by a Christian placing his or her trust in God. With God's help, a Christian can draw closer to God so that Satan won't fan the flames of a single Christian's sexual desires, causing him or her to fall prey to sexual immorality. The second part of the book discusses those who are single and waiting for God to bless them with a husband or a wife. God has a mate for those who are willing to wait on him patiently. The book concludes with a prayer for those who want to accept Christ as Lord and Savior.

Growing up on either side of the Iron Curtain, David Scott and Alexei Leonov experienced very different childhoods but shared the same dream to fly. In this unique dual autobiography, astronaut Scott and cosmonaut Leonov recount their exceptional lives and careers spent on the cutting edge of science and space exploration. With each mission fraught with perilous risks, and each space program touched by tragedy, these parallel tales of adventure and heroism read like a modern-day thriller. Cutting fast between their differing recollections, this book reveals, in a very personal way, the drama

of one of the most ambitious contests ever embarked on by man, set against the conflict that once held the world in suspense: the clash between Russian communism and Western democracy. Before training to be the USSR's first man on the moon, Leonov became the first man to walk in space. It was a feat that won him a place in history but almost cost him his life. A year later, in 1966, Gemini 8, with David Scott and Neil Armstrong aboard, tumbled out of control across space. Surviving against dramatic odds—a split-second decision by pilot Armstrong saved their lives—they both went on to fly their own lunar missions: Armstrong to command Apollo 11 and become the first man to walk on the moon, and Scott to perform an EVA during the Apollo 9 mission and command the most complex expedition in the history of exploration, Apollo 15. Spending three days on the moon, Scott became the seventh man to walk on its breathtaking surface. Marking a new age of USA/USSR cooperation, the Apollo-Soyuz Test Project brought Scott and Leonov together, finally ending the Cold War silence and building a friendship that would last for decades. Their courage, passion for exploration, and determination to push themselves to the limit emerge in these memoirs not only through their triumphs but also through their perseverance in times of extraordinary difficulty and danger.
