Creating the Dropout: An Institutional and Social History ...

Creating the Dropout: An Institutional and Social History of School Failure. Dorn, Sherman. One of the six national goals in the United States is to achieve a 90 percent graduation rate by the year 2000. In the last 50 years, high school graduation has become the norm. Concurrent with the new expectation of high school graduation came the dominance of the word "dropout" to describe those without diplomas.

Institutional change: System-wide changes that can be utilized to create an ecosystem for student success, including improving school climate, evaluating policies and practices, and understanding the multiple pathways to graduation that can be used to re-engage students and increase graduation rates.

Dropout Prevention Framework | CDE

According to Gill's (1998) review of Sherman Dorn's 1996 book, *Creating the dropout: An institutional and social history of school failure*, Dorn argues that the hysteria over dropout rates is unfounded and a social construct without a base.

Dropout Prevention - wikiEdResearch

In the past two decades, although access to higher education for American students has improved, student persistence in 4-year institutions is far from assured. There have been a number of research studies on student persistence/dropout in higher education, but most have focused on the characteristics and behavior of students as illustrated by the "student-centered research tradition".

Institutional Characteristics and College Student Dropout ...

Dropout is a technique for addressing this problem. The key idea is to randomly drop units (along with their connections) from the neural network during training. This prevents units from...
