installation guide - directeddealers.com

Before beginning the installation: •Check with the customer on Status LED location. •Remove the domelight fuse. This prevents accidentally draining the battery. •Roll down a window to avoid being locked out of the car. After the install: •Test all functions. The "Using Your System" section of the Owner's Guide is very helpful when testing.

INSTALLATION

Features. Overview: The door lock relay module (451M) will interface with most electric power door lock systems drawing 30 amps or less; both relay-controlled and direct-wired reversing-polarity types. It can also drive aftermarket door lock actuators, which must be added in the driver's door of select vehicles. In addition, it can directly operate post-1985 Mercedes-Benz and Audi vacuum ...
