A "service engine soon" (SES) light is an easy way for your Ford's onboard computer system to bring potential engine problems or failing parts to your attention. However, once you have had the repair completed, the light may not reset itself automatically. To turn the light off, you must perform a manual reset of your Ford's computer system.

How to Reset a Service Engine Light on a Ford | It Still Runs

Service Engine Soon Light Meaning. If the 'Service Engine Soon' light comes on, it means that there is a small problem with the electronics or the engine of your car. Some manufacturers use them as a check engine light for minor problems. It could also mean that it is time for a scheduled service, such as oil or spark plug replacement. Some manufacturers only have one indicator for both scheduled service and engine problems. Common causes of the Service engine soon light:

Service Engine Soon Light - Meaning, Causes & Fix ...

When the check engine light (CEL) appears on the dashboard of the Ford F-150, the truck is essentially communicating that there's an issue somewhere. The first step should be to figure out why the check engine light came on in the first place as prolonging a diagnosis could cause more damage to the truck.
