KOMET KK55 REED VALVE KART ENGINE

The IAME Komet K25 is a water cooled 125cc clutched reed valve two stroke engine that can be seen as the predecessor to many modern day 125cc TaG engines. As opposed to its TaG descendants, it has no onboard electric starter. Since it is a clutched engine, an external starter is needed, similar to the ones used for JICA engines.

Foreign Engines - Vintage Karting Association

"Keep it Real, Say no to replicas" - Mike, Speed Parts Co. Kart engineers shaped racing with new and innovative ideas, many of which hailed as the latest thing by the modern manufactures; the 1959 Progress Kart used a hollow axle and one kart in particular used technology only recently discovered in Formula 1.

ENGINE INFO

The crankshaft was developed from a totally new design (without plastic stuffers) and was fabricated as a one-off unit for testing. It utilized a billet 96mm connection rod from the IAME racing department's international Komet rotary valve kart engine program. The piston assembly was adapted from a Yamaha bike engine and featured two rings.
