In Language of the Spirit, renowned music scholar Jan Swafford argues that we have it all wrong: classical music has something for everyone and is accessible to all. Ranging from Gregorian chant to Handel's Messiah , from Vivaldi's The Four Seasons to the postmodern work of Philip Glass, Swafford is an affable and expert guide to the genre.

These are among the central issues covered in this spirited and unusually clear introduction to the philosophy of language. Making no pretense of neutrality, Michael Devitt and Kim Sterelny take a definite theoretical stance. Central to that stance is naturalism—that is, they treat a philosophical theory of language as an empirical theory ...

The present work is designed to provide a carefully graded introduction to the grammar and vocabulary of the Gothic language. The material is presented in a way that I have found very effective in my teaching of other languages over the years, with enough examples and exercise material to lead the student to a rapid and intelligent reading of the extant texts.

Language arose out of a need to communicate ideas and commands. Initially it was very basic, but in its current form language is very complex. It is adapted to the changing need of speakers. In this sense, language is a living entity which evolves in response to the changing cultural context in which it exists. Because language evolves in ...
