Construction Business Management - Markup And Profit

If a 20% profit margin is desired, markup is 25%; double the profit margin to 40%, the markup more than doubles, it actually goes up by a factor of 2.66. THERE IS NO LINEAR RELATIONSHIP BETWEEN MARKUP AND MARGIN. Now that the basic concept of markup has been explained, let's relate this to costs.

Markup in Construction - Fundamental Understanding

Somewhere along the line, people started believing that a 10% overhead and 10% profit is the industry standard for construction jobs. Or that a 20% markup is all a contractor needs. Armed with that knowledge, owners try to get their contractor to reduce the price of the job they want done. If you think it through, it's not a smart move.
