the important areas of research and interest in cell and molecular biology—the genome, molecular biology, plasma membranes, signal transduction, the cytoskeleton, cell division, development and differentiation, stem cells, cancer, and more. A CD-ROM is included that contains many fascinating examples ...

## **Molecular Biology of the Cell, 4th Edition : Shock**

Research article: The figure shows how cell proliferation is regulated by substrate softness in hepatic C9 cell line. The cell proliferation rate of C9 cells and their ERK activity are decreased when cultured on soft PDMS; however, after a consecutive passaging threshold, the proliferation rate and ERK activity are reactivated at levels similar to that of the initial stiff substrates.
