### **Open Source ERP and CRM | Odoo**

I just \*almost\* finished a project with Odoo and I must say that you are kind of right. I do think that Odoo has a lot of potential and that it's a well-built system, but it has a steep learning curve and unless you know what you are doing, you...

### **Are Odoo/OpenERP architecture and documentation a mess ...**

OpenERP documentation uses RST [1] format, which is rendered as HTML or PDF using Sphinx [2]. Build scripts are provided in the documentation tree to easily contribute and manage translations, and to produce the various outputs. If you are interested in contributing to the documentation, the structure and guidelines are outlined here [3] and [4].

### **OpenERP Documentation in Launchpad**

OpenERP received a lot of feedback from training sessions, OpenERP online customers and Launchpad contributors on areas and concepts that were not easy to understand in OpenERP. They used this feedback to refine terms, documentation and tooltips that needed to be improved for better clarity.

### **What's new in OpenERP 6.1 | Zesty Beanz**

A basic QWeb template is nothing more than an XHTML document (as it must be valid XML), which will be output as-is. But the rendering can be customized with bits of logic called “directives”. Directives are attributes elements prefixed by prefix (this document will use the default prefix t, as does OpenERP Web).
