**Introduction to Organic Laboratory Techniques**

Organic Chemistry 2 The second family of hydrocarbons we will study are the alkenes which contain a carbon-carbon double bond. The carbons use  $sp^2$  hybridization on the double bonded carbons.

**Organic - Lab Manuals for Ventura College - Home**

This laboratory text for the organic chemistry laboratory course has been in preparation for over 40 years and is still a work in progress. Work on the text has continued for several years after my retirement but publishers are hesitant to take a risk on a text that contains some incompletely tested experiments.
