Study Guides For Advanced Pharmacology

Along with this strategy there are various other, no less significant ways, to improve how to study pharmacology. These include: The need to find time to study. Set aside a realistic time to study one topic. Do not study two or three topics during one session. Learning one topic in detail is more valuable than vaguely learning three topics.

Pharmacology for Nurses: Collection of Study Guides ...

I found my advanced pharm class to be very difficult compared to my advanced patho class. I suggest forming a study group with no more than maybe 4-5 students, and make sure they are committed to actually studying the material. Study groups can be a hindrance if you have people who just want to chatter the entire time.
