**Usborne Big Book of Big Animals**

Great BIG book with thick pages that fold out about large machines/vehicles. Full of lengthy explanations of the different machines and their working parts. Features mining, farm, flying, road, building site, and dockside machines. We read a couple of pages at a time, though Eliot enjoys looking at all the intricate illustrations on his own too.

**The Usborne Big Book of Big Machines and Some Little Ones ...**

The Big Book of The Body is a great informational nonfiction book for children in pre-k-3rd grade. The pages fold out and help the students see each different systems in the body, like the muscular system, skeletal system, and circulatory system.

**The Usborne Big Book of the Body by Minna Lacey**

This book is pretty impressive. It's quite large, with pages that fold out into a four-page spread. As the title implies, it's full of sea creature illustrations, and the text consists of fun facts and tidbits about each creature. This book would work for kids at many different levels.
