a well-known book, and there's probably a free eBook or two for this title. The original work is in the public domain, so most of the variations are just with formatting and the number of illustrations included in the work. However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results

TomTom Navigator is very flexible. If you take a different turn from the one TomTom Navigator proposes (whether by mistake or on purpose), TomTom Navigator will adjust almost instantly to the new situation. It will keep guiding you to your destination from your current position as fast as it can calculate. Chapter 3
