Table of contents for Tourism research methods

As we know from previous chapters, science is knowledge represented as a collection of “theories” derived using the scientific method. In this chapter, we will examine what is a theory, why do we need theories in research, what are the building blocks of a theory, how to evaluate theories, how can we apply theories in research, and also presents illustrative examples of five theories ...

Chapter 4 Theories in Scientific Research | Research ...

This study aimed to develop the cooperative model converging stakeholders in both the convention and medical tourism sectors. It was to derive factors representing collaboration toward common goals and values recognized by both sectors from the stakeholders’ perspectives through qualitative research methods. The study applied Deutsch’s cooperation theory, which states that cooperation is ...
