Electrical Wiring for a Workshop. I would highly encourage you to consider installing a sub panel in the new workshop that will have enough amperage capacity for your planned electrical circuit loads, and any possible future equipment that may be added. Once the workshop calculated loads have been established the size of the sub panel may be known.

I built a 30x30 workshop and have a few electrical questions. What amp size service panel will I need? Will have 8 120v receptacles and do they all need separate 20 amp breakers with #12 wire? Will have 2 240v receptacles, air compressor and a stick welder, what size wire and circuit breakers for those two components?
